

EUROPEAN ATM ATTACKS

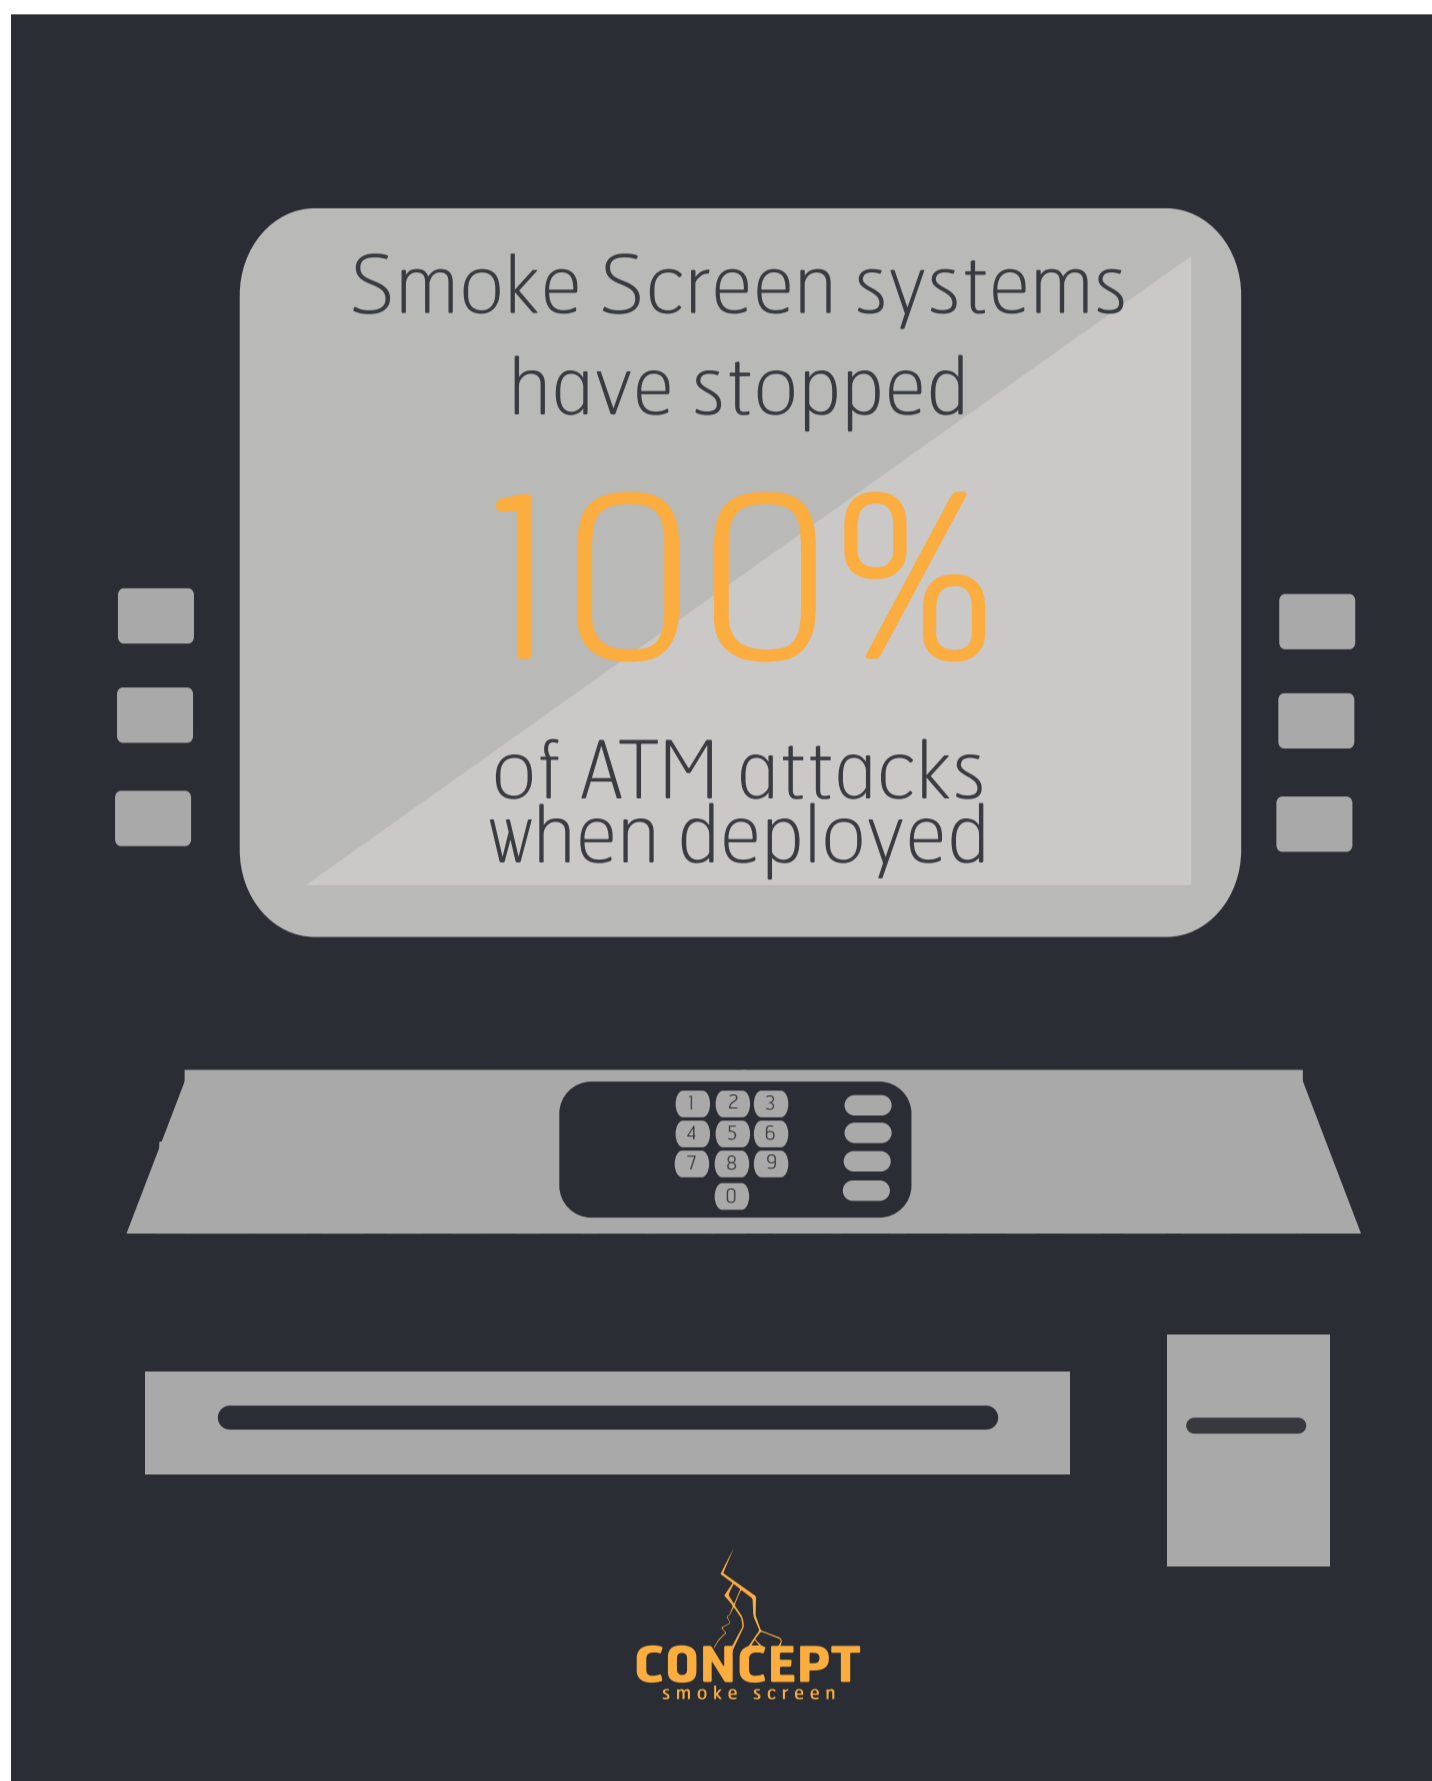

The increasing number of attacks on ATMs in Europe from January - June 2016

FIGHT BACK!

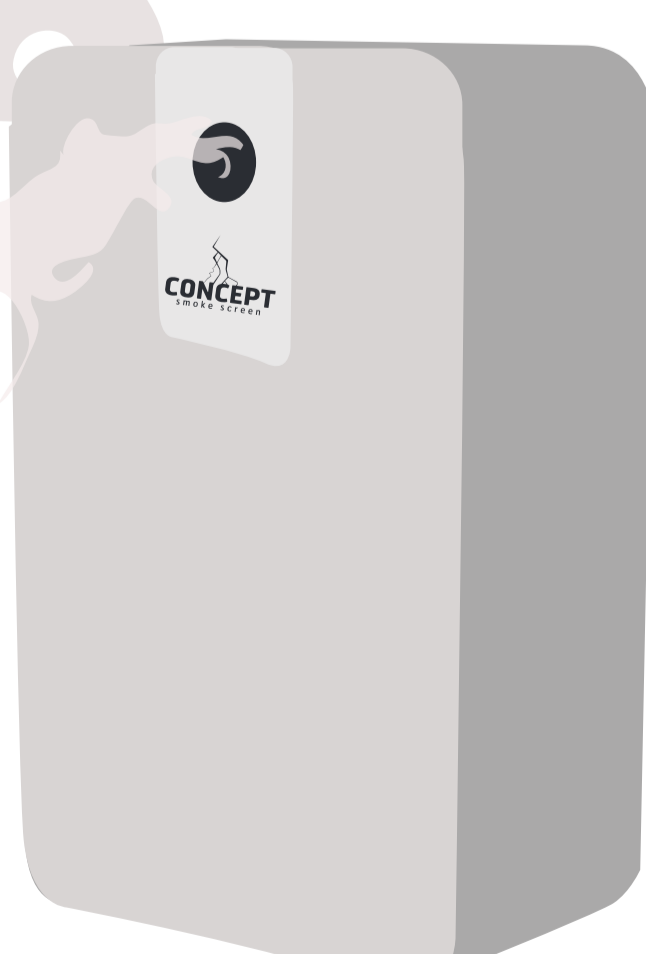

PREVENT ATTACKS ON ATMs

Security fog defends property and deters intruders within seconds

CAN'T SEE IT? CAN'T STEAL IT!

- Produces dense, dry fog (no residue) which is harmless to both people and property
- In 2015, the fastest Smoke Screen defence was recorded when a burglar was stopped by a Sentinel the day it was installed
- In July there were 90 attacks in ATMs in Brazil - Smoke Screen customers suffered none!
- The Sentinel range can be used in a multitude of situations, not just to protect ATMs

PREVENT ATTACKS ON ATMs
